Stomach Bitters
are a cure for Dyspepsia—will remove all Jaundice and Heaviness from the stomach—also from Costiveness, accompanied with Indigestion, give a good appetite, and impart a healthy tone to the system. It is a certain preventive of
Fever and Ague.
Persons subjected to Malarious Climates should use it daily as a preventive against the baneful effects of Malaria. It is the best family medicine in use. Physicians in all parts of the Union prescribe it in their own families in preference to any other bitters. Merchants who keep it say it is the most popular article they have to sell, and that it is the only bitters for which they can get their money back if it does not do all that is represented. Hundreds of the most respectable citizens in Philadelphia, Pittsburgh, Cincinnati, Louisville, Nashville, Mobile, New Orleans, Galveston, Vicksburg, Natchez, Memphis, Cairo, St. Louis, Chicago, Detroit, Cleveland, Buffalo, Rochester, Albany, Troy, Boston, Providence, New York, Baltimore, Washington, Richmond, Norfolk, Wilmington, Charleston, Savannah, Augusta, Macon, Columbus, Montgomery, Pensacola, Tallahassee, Havana, Nassau, Kingston, Jamaica, Rio Janeiro, Buenos Ayres, Valparaiso, Callao, Canton, Calcutta, Singapore, Sydney, Melbourne, Van Diemen's Land, Capetown, Liverpool, London, Paris, Havre, Berlin, Hamburg, Amsterdam, Rotterdam, Antwerp, Brussels, Cologne, Leipsic, Vienna, Trieste, Milan, Genoa, Leghorn, Rome, Naples, Palermo, Malta, Smyrna, Constantinople, Alexandria, Cairo, Calcutta, Madras, Bombay, Canton, Hong Kong, Shanghai, Manila, Batavia, Rangoon, Bangkok, Ceylon

SATURDAY, JUNE 30, 1855.

Repairs on the Canal.—The work of repairing the breaks caused by the late flood on the St. Joseph Feeder and main line of Canal is progressing as rapidly as circumstances will admit. The continued high water has somewhat retarded operations; but the present prospect is that all will be completed, and the Canal in navigable order within two weeks from this day.

THE WEATHER.—The long continued rain storm is at length at an end. Since Wednesday the heat has been intense with every appearance of continued hot dry weather, calculated to ripen the grain rapidly.

THE WHEAT, we regret to learn, has made its appearance in our wheat fields. The grain in some instances is said to be nearly destroyed by this pest. We have not learned whether it is general, but we hear of so many cases, that we much fear the loss to our farmers will be very great. This is the more to be regretted, as previous to this visitation the wheat looked unusually fine, and promised a most abundant harvest.

The Clay Co. Riot's ended.—The disturbances at the Birch Creek Reservoir have been finally brought to a close, and the Evansville volunteers sent there for the protection of the laborers engaged in the repairs of the break, disbanded. A compromise was effected, the Canal Trustees agreeing to clear off the timber standing in the reservoir, and the citizens pledging themselves to aid in the protection of the work.

Fifteen of the outlaws engaged in the destruction of the reservoir and burning of the shanties of the laborers, have been arrested.

Commencement of Work on the Fort Wayne, Logan, & Platte Valley Airline Railroad.—We learn by the Lucon (Ills.) Intelligencer that operations were commenced on the division of this great work between Lucon and the Illinois Central Railroad on the 19th inst. in presence of a large concourse of spectators. The first earth was removed by the directors present, Messrs. Sweet, Penn, Perry, and Whipple; Mr. Thompson, the energetic contractor, presiding with distinguished force and ability at the wheelbarrow—an instrument of great power on such occasions, when artistically played: After the directors, all present, including several ladies, participated in the work of commencing this great and national work, intended to unite the Atlantic with the Missouri, on an almost unbroken airline, and at no distant day to be continued to the shores of the Pacific.

After the labors of the day were completed, and the work pronounced fairly begun, speeches were made by Messrs. I. I. Penn, H. L. Fort, S. L. Fleming, Judge Ramsey, S. R. Thompson, Maj. Kelsey, T. Perry, Gen. Whipple, and others. The company then partook of a bountiful barbecue, prepared by W. B. Green, Esq. to which ample justice was done, the appetites of all doubtless sharpened by the nature of the exercise they had taken.

The citizens of Lucon are highly elated at the prospect of the early completion of this magnificent undertaking; and we are glad to learn that property in that beautiful town has advanced more than 50 per cent within the past few weeks. A new era is about dawning upon it, and its citizens richly deserve all the benefits which will accrue to them, their liberality and enterprise richly merit an adequate reward.

This road may now be considered fairly begun, and will be pushed to completion as rapidly as the means of the company will admit. Other portions of the work in Illinois, from New Boston on the Mississippi River, eastwardly will soon be commenced. In Iowa the portion from opposite New Boston to Washington, a distance of 10 miles, will be put under contract on the 4th July. In Indiana, the engineers are busily engaged in preparing the line, and early in the fall we expect to announce that the work from Fort Wayne to Liberty Mills (and perhaps to Rochester) is placed under contract. Some 15 or 18 miles, from Rensselaer to the New Albany & Salem Railroad, will probably be commenced before that time, and an equal amount, from the N. A. & Salem R. R. to Winamac is also expected to be under contract this season.

A work of such national importance, and one which is looked upon with so much favor, by railroad men and capitalists generally,—presenting an east & west line so far superior in local advantages, and so much more direct than any other contemplated,—cannot long languish when once energetically commenced, and we therefore confidently look for its early completion. Our citizens will then find themselves occupying a prominent position on the DIRECTEST AND BEST HIGHROAD LINE in the United States. Would not a more liberal subscription to its stock on their part, show a better appreciation of the advantages of such a railroad than they have yet evinced, and render them more deserving the good fortune in store for them? Smaller towns than Fort Wayne have invested far more liberally in works not promising a tithe of the return that this will inevitably bring to us.

Violation of the Liquor Law.—On Saturday last, Gotlieb Traeger was brought before the Mayor, charged with selling liquor, in violation of the Prohibitory Law. He was fined $20, and in addition had to pay $11.93 costs. Selling liquor at this rate must be a poor speculation; one such fine as this will eat up the profits of the sale of an immense number of glasses of whiskey. Gotlieb had better quit the business, and try something else.

CONNECTICUT.—The Legislature, on Wednesday last, elected the following Judges of the Superior Court: Waldo, democrat (present Commissioner of Pensions) Seymour, democrat (late M. C.); and Butler and Park, Know Nothings.

The President has dismissed Mr. Wilson, Commissioner of the Land Office. It is rumored that Wilson Shannon of Ohio will succeed him.

REV. J. EWARDS, for many years Pastor of the First Presbyterian Church in this city, has accepted the Presidency of South Hanover College, Ind., and will, we believe remove in a few days. His farewell sermon will be preached to-morrow. The delicate state of his health and that of his family has induced him to leave us, in hopes a change of air may prove beneficial.

Mr. E. stands high, and deservedly so, in the estimation of the members of his large church, who part with him with regret. He is a gentleman of great ability and acknowledged talents, and as such will prove a great acquisition to the Institution over which he is about to preside.

Chance for Printers.—The establishment of the LIMA WHIG is offered for sale at $600. It is the only office in Lagrange County, and we should think a good printer might find it a desirable location. Address J. S. CASTLE, Lima, Lagrange Co., Indiana.

GAS MONOPOLY.—From communications in the Times it appears that the gas company at this place intend to monopolize the business of fitting up the gas pipes in the interior of buildings and have given notice that no gas will be supplied to any building unless the interior pipes and fittings are put up by themselves. This favors too much of monopoly to be relished by our citizens, and if the company do not reconsider their ill-judged determination, it may cause many, who would otherwise have used gas, to content themselves to continue their present means of illumination. There is seldom any thing made by such short-sighted grasping policy. In other places the business of putting up the necessary fixtures for gas is left open to competition, the companies contenting themselves with introducing the gas into the premises. We see no good reason why our resident mechanics should be debarred the same privilege.

Mr. BURRIE has gone to a considerable expense in providing himself with the necessary pipes, fixtures, and apparatus for this business, and is now notified that he cannot be allowed to use them. He therefore gives notice that intends to investigate the claims of certain newly invented methods of making gas, which have been introduced in some other places, in competition with the gas companies, which were thought to be too exorbitant in their charges. They are said to produce a better article of gas and at less expense. Should Mr. Burrie become satisfied that this is the fact, he purposes to procure the necessary apparatus, and will furnish the gas *at cost*, without any profit to himself.

RELIC OF OLD TIMES.—We are indebted to Mr. W. S. Smith, gunsmith, of this city, for the present of a handsomely finished substantial cane, made from timber taken from the Old Fort. It is a present to be highly prized, especially by a resident of the growing city now occupying the spot whose Wayne erected his fort in what was then the very heart of the Indian country, going by his own name. The receipt of this cane naturally carries the mind back to the period when the gallant Mad Anthony broke the power of the savage Indians, who had hitherto roamed this part of the country in almost undisturbed security, and forcibly reminds us of the sufferings, dangers, and privations of the brave men under his command. It is a handsome present, and we are under great obligation to Mr. Smith for it.

It may be gratifying to many to know that Mr. Smith has a supply of the Old Fort Timber on hand, and can furnish such as desire, with neatly finished canes made from it. It is needless to add anything in relation to his guns, rifles and pistols. They speak for themselves—pretty loudly, too—and give a good report of his skill in that line.

MORE GOODS.—A Gifford has now on hand, at the old stand of Kirk, Williams, & Co. corner of Columbia and Clinton streets, a full and well assorted stock of New Goods of all kinds—dry goods, groceries, queensware, hardware, wooden ware, &c.—which he purposes selling at the smallest possible advance on first cost. Give him a call, and rely upon it, you will get bargains, and satisfy yourselves that GIFFORD'S is one of the best and cheapest stores in town.

COLTON'S AMERICAN ATLAS, AND ATLAS OF THE WORLD.—This magnificent work, now in process of publication by Messrs. J. H. Colton & Co., of New York, will be, when complete, one of the greatest achievements of the kind ever accomplished in this or any other country. The Atlas entire will consist of about 150 maps and plates, on about 110 sheets, giving a minute description of every State, Territory, Province, Kingdom, and country in the known world, and exhibiting all the lines of railroads, canals, and other public improvements now in existance or in process of construction. Each Atlas is illustrated with elegant letter-press descriptions of the countries delineated, comprising statistical tables, exhibiting a full and accurate account of their geography, resources, commerce, and general interests, and the statistics relative to the several subjects treated upon. These letter-press descriptions have been prepared with great care by RICHARD S. FRANCIS, M. D., author of the "American Statistical Annual," the Progress of the United States," &c. Mr. Colton's reputation as a correct geographical delineator is world wide. The size of the Atlas is known as *imperial folio*, each map being about 19 by 16 inches, and will be bound in any style that subscribers may desire. The work, although not yet complete, has required a cash expenditure of more than $40,000. Its general character must commend it strongly to the patronage of all who feel an interest in the growth and prosperity of our country; for reference it is convenient and reliable; it is one of the most beautiful and useful works that can be placed upon the shelves of a library; and as a work of art it is eminently worthy the patronage of the American public. To be appreciated, it must be seen. It is sold only by subscription.

Mr. WELLE, the agent, is now here, and will remain a few days, to offer our citizens an opportunity of examining and subscribing for the work. Considering the great labor and expense bestowed upon the Atlas, it is cheap at the price charged. We cheerfully commend it to the attention and patronage of our citizens.

GRAHAM'S MAGAZINE for July is already on our table; it contains the first chapter of "The Wigwam in the Wilderness;" a new sporting story, by Frank Forester (H. W. Herbert.) "The East of the Justinian;" a classic and beautiful love story, by Mrs. E. L. Cushing. "Washington Allston," another of Mrs. E. Anna Lewis' popular articles on "Art and Artists of America." Poetry by Bryant, Alice Cary, Park Benjamin, and others. The new national air of France "*Partant pour le Syrie*," with a translation of the words, published now for the first time in America. And the usual making up of the Magazine—Mary Stuart, and other prose articles; Steel Engravings, Fashion Plates, Editor's Table, Patterns for Needle-work, &c. &c.

The number commences a new volume, and it is therefore a favorable time to subscribe. Terms, $3 00 per annum; 2 copies for $5 00; 6 copies $10.00. A. H. SEE, publisher, Chestnut St., Philadelphia.

☞ The War Department at Washington received further advices, which entirely discredit the statement of the capture of Fort Laramie.

To the Editor of the Sentinel.

DEAR SIR,—By the Fort Wayne Times of Thursday I perceive the Editor somewhat at length reviews the subject of filling vacancies in Office. In view of the position I occupy, it is enough for the present to say that I have directed the Attorney General to bring the question at once before the Supreme Court, now in session, that we may act understandingly in regard to the matter. There are several cases in this state awaiting judicial decision.

In ordering elections I have no inclination to act counter to the constitution and laws; and the decision of the highest tribunal known to our state, which we shall have in a few days, whatever it may be, shall be the governing rule of my official conduct in this premises.

I. D. G. NELSON, *Clerk.*

Correspondence Between the Secretary of State and Governor Reeder of Kansas.

W. L. MARCY, ESQ., TO GOVERNOR REEDER.

DEPARTMENT OF STATE,
WASHINGTON, June 14, 1855.

Sir: I am directed by the President to inform you that with the developments before him in reference to purchases of Kansas half-breed reservations made by you in the Territory of Kansas, and in which, as you state, Judge John Pettit and Elmore, of the Supreme Court of the Territory, and Mr. Isaacs, the District Attorney, participated; and in reference, also, to other speculations by you in lands of the Territory, apparently in violation of acts of Congress and regulations of the department, he feels embarrassed to see how, consistently with his convictions of duty, he can allow the present official relation to the Territory of yourself or of either of the gentlemen named to continue, unless the impressions which now rest upon his mind shall be removed by satisfactory explanations.

The President will however, be glad to receive and consider any explanations which you may desire to make in regard to the character and extent of the transactions in question.

I have the honor to be, respectfully,
C. CUSHING.

The Democratic Position on the Slavery Question.

The abstract question of slavery has been the subject of earnest and elaborate discussion in the different sections of the confederacy for many years, but we are unable to discover any evidence of an advance towards an agreement between the disputants. Those who are opposed to slavery because they regard it as an immoral institution have not been convinced by the reasoning of those who maintain that it violates no moral obligation or Christian duty. On the other hand, the advocates of slavery as a legal and moral institution have found nothing in the arguments of its opponents to weaken their original opinions. As to whether the institution is moral or immoral, or whether it is social or political blessing or evil, the question is as far from settlement as it was when the discussion commenced. Perhaps it would be more strictly accurate to say that the only effect of the discussion has been to strengthen the original convictions of the contesting parties. The northern man who was educated to regard slavery as a great moral and social wrong adheres to the opinion with which he has grown up, and which is almost an instinct of his nature. The southern man who has been familiar with the institution from his childhood, and has been taught from his earliest recollection to regard it as entirely consistent with morality and the teachings of the Bible, still cherishes the same sentiments. We think it may be safely assumed that an agreement of opinion on the subject between northern and southern men is an impossibility; and in looking at the dangers involved in this question, and in seeking for the means of avoiding those dangers, it is justifiable to act upon the assumption that all hope of ever effecting such agreement is impossible.

If we are right in assuming that the North and the South can never harmonize on the abstract subject of slavery, it follows that there can be no such things as national parties except upon the basis of an entire exclusion of the subject from their political creeds. No mathematical proposition is more true than that the only basis of party organization is an agreement amongst those who enter into it upon the subjects which they recognize as belonging to its creed. They may differ as widely as is possible as to all subjects not embraced by their party creed, but to be harmonious inside of their organization they must have common sentiments, and stand together on a common platform. These truths will command ready assent, and they demonstrate the proposition that no party embracing members at the North and the South can be national or harmonious in this organization which does not exclude the question of slavery from it creed. If northern men insist upon ingrafting upon their party creed the doctrine that slavery is a moral or political evil, they raise an insuperable barrier against a harmonious association with southern men. In like manner, if southern men insist on making it part of their party creed that slavery is morally and politically right, they thereby cut off northern men from politically association with them. The necessary result is, that without toleration of differences of opinion as to the abstract question of slavery, parties are necessarily sectional, and cannot possibly be national.

The same disagreement between the two sections as to slavery which exists now has existed from the beginning of the Government, and, at that time, constituted one of the chief obstacles to the formation of a constitutional union. It was settled in a compromise, which was intended to be a permanent rule for all time, touching the relations between the different sections of the confederacy. The Democratic party bases its claim to nationality upon the fact that, whilst it recognizes the validity and obligatory character of the compromises of the Constitution, it denies to the Federal Government any right to interfere with the question of slavery beyond the instances specified in the constitutional compromises. The action of the Democrats in the adoption of the measures of 1850 was based upon the principle that congress could not rightfully intervene as to slavery, except in the matters expressly enumerated in the Constitution. The act for the organization of Kansas and Nebraska was based upon the same principle of Congressional nonintervention; and it is upon this principle alone that any party can be perpetuated. As it may not be amiss at this time to secure to the authentic position of the Democratic platform as embraces that position. We quote from the last Baltimore resolutions:

"9. That Congress has no power under the Constitution to interfere with or control the domestic institutions of the several States, and that such States are the sole and proper judges of everything appertaining to their own affairs, not prohibited by the Constitution; that all efforts of the abolitionists or others made to induce Congress to interfere with questions of slavery, or to take incipient steps in relation thereto, are calculated to lead to the most alarming and dangerous consequences; and that all such efforts have an inevitable tendency to diminish the happiness of the people and endanger the stability and permanency of the Union, and ought not to be countenanced by any friend of our political institutions.

"*Resolved*, That the foregoing proposition covers, and was intended to embrace, the whole subject of slavery agitation in Congress; and therefore the Democratic party of the Union, standing on this national platform, will abide by and adhere to a faithful execution of the acts known as the compromise measures settled by the last Congress, "the act for reclaiming fugitives from service or labor" included; which act, being designed to carry an express provision of the Constitution, cannot with fidelity thereto be repealed or so changed as to destroy or impair its efficiency.

"*Resolved*, That the Democratic party will resist all attempts at renewing, in Congress or out of it, the agitation of the slavery question, under whatever shape or color the attempt may be made."

Information Wanted.

Of WM. BAKER, who left Lafayette for Fort Wayne some eight weeks since. Baker is about 5 feet 8 inches high, has gray hair, is about 52 years of age, and is a shoemaker by trade. Had on when he left, blue cloth coat and pants, and black vest. Any information in reference to him will be thankfully received by his wife, Matilda Baker, who is anxious to hear where he is.

Lafayette Courier.

Opening of the Sante St. Marie Canal.

Detroit, June 22.

The steamer Baltimore, which left this city 4 years since and was hauled across the Portage to Lake Superior, arrived yesterday, having come through the Sault Canal last Monday, in two hours. The Illinois passed through the same day. The propeller Gen. Taylor and schooner Emma A. Flint passed through on Tuesday.—The Illinois has gone to Dubuuqon, whence she will return to Detroit.

☞ Under the caption of "*Painful Rumor*," the Lafayette American of the 21st says:

Since the confession of Longley and Clark, there has been many rumors concerning past acts of villany, and those who are supposed to have participated in them. It is now generally believed that the lamented John Rose was indirectly murdered, by having his head severed from his body with an axe, after which his warehouse was set on fire, and his body, and as was supposed all evidence of the bloody transaction destroyed together. The ground for this belief we cannot definately state, but sufficient is it to say, that one arrest has been made, and more will follow. The murderers of Fauxenbaugh, it is said, are posted up in all the particulars of the crime, although they were not participants in the affair.

Again it is said that Stockton's barn, which was burnt last New Years, was the act of a gang about town. Their object was to steal the horses. To cover up their crime, they packed a quantity of old boxes of horses and placed them in the barn, in order to bear evidence that Stockton's horses were consumed. They set fire to the barn but were not skilled enough to haul out the horses first, and as they refused to be led out after the fire commenced burning, their object was at last frustrated, and the horses really burned up. Numerous other acts of villainy we hear of a being perpetrated by this gang. We mention them as rumors; how far they may be true, of course it is impossible for us to tell. There is no doubt, however, that Lafayette has been the head quarters of as great a gang of villians as ever trod the earth. No crime whatever seems to have been too horrible or damning to have deterred them in the least from its perpetration.

Glorious Prospects of the Tennessee Election.—The Nashville Union of the 13th inst. says:

"The candidates for Governor have now canvassed half the State, and we are able to form a positive opinion of the prospect. In the West and Middle Tennessee the Democracy are fully aroused and better organized than they have been since 1844. There are thousands of Whigs who utterly refuse to have anything to do with Know-Nothingism. Unless all signs fail, Governor Johnson will do at least three thousand better in these two sections than at the last election. From East Tennessee our information is nearly as good as from the other sections, and we doubt not that when Johnson speaks there it will be quite as good. His election we regard now as certain, but we remind our friends that Know-Nothingism deserves an *overwhelming rebuke*."

From California.

NEW YORK, June 25.

The Steamer Star of the West arrived here last night, and brings two weeks' later news from California, and $626,000 in gold.

The municipal election in San Francisco took place on the 28th ult, and resulted in the success of most of the names on the Democrat ticket by a small majority.

Nothing of importance has occurred at the mines. During the eight days coming from May 8th, gold valued at about one million dollars had been deposited at the U. S. Branch Mint.

The reported defalcation of Angus Frierson, reported in December last, amounts to about $177,000. Mr. F. was financial manager in Wells, Fargo & Co's. Banking and Express Company in Sacramento.

$1,216,123 in gold dust went forward to western States by the Steamships Sonora and Uncle Sam, on the afternoon of the 17th.

The gambling law went into operation May 17 when all the gambling saloons in the State were shut forever.

The creditors and the holders of certificates of the late banking house of Page, Bacon & Co., have held large meetings relative to the refusal of Mr. Daniel D. Page to make the parties which who came forward two months sinces to sustain the house at the time of the first suspension.—Committees have been appointed to examine the accounts and the affairs generally. Finally, at a meeting May 20, Mr. C. R. Garrison came forward and pledged his property, to the amount of $100,000, in support of the house, by way of securing the creditors and staying all further legal proceedings. The proposition seems to have given very general satisfaction, and the creditors are looking forward with renewed hopes of being finally indemnified.

The affairs of Adams & Co. are now being investigated in the fourth district court. It has been decided by Judge Lake that banks are entitled to the benefits of the insolvent act.

NEW YORK, Tuesday, June 26.

A warrant has been issued for the arrest of Chas. A. Stanley, the Secretary of the British Consul, for enlisting troops for the army at the Crimea. He was arrested this afternoon and gave bail.

☞ A great deal of surprise has been felt and expressed that the know-Nothings have omitted to celebrate, with appropriate ceremonies, a very important event, the anniversary of which occurred yesterday: Fifty seven years ago JOHN ADAMS signed the Alien and Sedition Law.

Perhaps our fellow citizens of the "Dark-lantern order" intend to supply this omission in their past-run celebration of the approaching Anniversary of our Independence.—*Cincinnati Enquirer.*

Railroad Contest.—The misunderstanding between the New York Central and Erie Railroads in regard to passenger fares, is about to result in the reduction of through rates between New York and Lake Erie on nearly all the trains. The Central managers, we understand, have determined to run an express train from New Buffalo, to connect with the Hudson River Railroad at Albany for $7.50, instead of $9, as heretofore, the Hudson River Road still getting $1.50 for its share. Other first class express trains will run in connection with the Hudson River boats for $6.50; and a second class train is to be put on, to connect with the boats for $4. These terms will, of course, compel the Erie road to something like a corresponding reduction, in order to compete with the rival route. The Erie road is accused of violating its agreement to control its branches, particularly the New York and Buffalo line. They reply that they have not the control and cannot exercise it; and never intended to promise to do so.

In the midst of this controversy, Central stock has gone up suddenly four to six per cent! The May earnings, which compared with last year, show an increase of $110,000, partly produces this.

The Dubuque Chronicle reports that the small pox is killing the Oawego Indians to an alarming extent. During the space of two weeks nearly 200 died. When taken with the disease they immediately get into the water, and there lie until death overtakes them.

A Company of United States Troops Killed by Indians.—A dispatch received from St. Louis, dated the 22d inst, says:

"An arrival from New Mexico brings a report that the Apache Indians had attacked two companies of United States troops garrisoned in New Mexico, killing upward of fifty men and all the officers of one company."

Arrival of the Baltic.

Highly Interesting News. The Allied Fleet before Cronstadt. More Fighting—No important results.

NEW YORK, June 28th.

The Steamer Baltic arrived from Liverpool whence she sailed on the 16th.

The Russians had evacuated Anapa, and the French troops were recalled from Kertch

SEVASTOPOL DISPATCH.—The steamer Arago arrived on the 6th ult.

Coul & Co. bankers of London, and Halford & Co. Navy agents had failed. The former for half a million of pounds Sterling.

ENGLAND.—Ex-President Fillmore is quite a lion—he has been presented to the Queen.

Parliament was engaged in discussing the decimal currency question. More reform meetings had been held.

FRANCE.—It is officially announced that the Empress is enceinte.

The fight before the Mamelon Tower was of a very obstinate character. It is reported that five thousand men were put hors de combat—Sixty two fell into the hands of the French.

The Duke Constantine has been appointed Regent of Russia, in the event of Alexander's decease.

The Russians were about to build a Railroad through the Isthmus of Perekop.

The Viceroy of Egypt is enrolling 5000 blacks in London.

All accounts agree that disease and despondency prevade the garrison at Sebastopol.

Private letters from Kertch, give fearful accounts of sufferings endured by the Russian army from scurvy and sickness. The Russians have scarcely a communication with the Crimea by an independent road, traversing the Isthmus of Perekop by means of line boats across the Liveasho.

The Russians it is stated have evacuated the whole of the Circassian territory.

The following official dispatches from Pelissier gives account operations before Sebastopol, June 7th at 6½ P. M. Our signals were given and an hour afterwards our flag floated over Shamelon, fort, and over two Redoubts of Carenning Bay. The artillery of the evening fell into our hands. We have taken 400 prisoners, our legions occupy the conquered works on this side. Our Allies with their equal resolutions entered the works in the Quarry, and established themselves there.—All the troops showed the most admirable devotion and intrepidity.

June 10.—The conflict of June 9th was more advantageous for us than at first anticipated.—It placed in our hands 502 prisoners of which number 20 are officers, and 73 pieces of cannon.

June 11th.—We are congratulating ourselves on the new works. We have been able to fire with the Russians mortars on their ships, which have gone still further over. The position of Arabat was abandoned by its garrison June 6th. It is now occupied by the Circassians. The heat was excessive in the camp.

Gen. Pellissier was forming a lepot on the Tchernaya.

Accounts from Varna mention the rumor, that propositions for an expedition against Perekopas, were being made.

The British Admiralty make public the following:

Capt. Lyons, of the Miranda, and Capt. Livapes reports that the naval operations against Taganrogs, Marupaul and Chuck, which took place on the 3d, 5th, and 6th of June, have been perfectly successful. The public buildings, among which are government magazines of provisions, have been burned. The operations were conducted with great vigor and rapidity, the allies having only one man wounded, although opposed by 350 soldiers at Taganrog.

An extensive boat expedition is being fitted out at Portsmouth for service in the shallow waters of the Sea of Azoff.

June 9th.—The English fleet, consisting of sixteen line of battle ships, including three French, was anchored at Cronstadt, and forming a line across, from shore to shore. Admiral Dundas had gone in very close with the surveying steamer, and afterwards with a boat, but was not molested by the Russians. Admiral Bouscieres, of the English squadron, anchored in the Great Belt on the 13th inst.

Mr. Fillmore was presented to Queen Victoria by the Earl of Clarendon at an audience, and subsequently at a drawing room. Mr. F. afterwards dined with the Queen.

Liverpool, June 5th.—Richardson, Spencer & Co's. Circular says: The brilliant weather for the last ten days and the very favorable reports of the growing crops, has had the usual effect at this season of depressing the markets throughout the country; wheat was quoted 3d lower; demand small; flour was freely offered at 2s per sack less without attracting purchasers. Indian corn has been in less request throughout the week, and in the absence of fresh orders has declined 1@2d a 1s 9d per qr. 2d days market was poorly attended, and a small business done in both wheat and flour. R. STARKWEATHER,
County Auditor.

In addition to the foregoing Report, the undersigned would respectfully state that all the funds collected and due to the several Townships in the county of Allen, for Township and special school tax purposes, to wit:

And also all the funds collected and due to the several townships in said county of Allen for Road purposes (besides road tax receipts redeemed), to-wit:	$3725 30
	1013 38
And also all the school fund interest and school apportioned by the superintendent of public instruction to said county of Allen, to-wit	5889 96
And also all the interest derived from the congressional township school fund collected and due to said townships respectively, to-wit:	3016 06
Amounting in all to	$13695 70

Have been paid by the County Treasurer to several Township Treasurers respectively, on the warrants of the county auditor, with the single Exception of the sum of $22 57 of road tax fund, which has not been called for.

R. STARKWEATHER,
County Auditor.

The undersigned would respectfully state, upon an inspection of the Treasurer's report ready for submission, that the outstanding county orders amount to the sum of $13533 45
And that the estimated interest due on the same is 850 00
Making the total amount of $14383 45
And that the amount of cash in the Treasury is 1676 67
Which shows the indebtedness of the county May 31st 1855 to be $12506 78

The undersigned Auditor, for the purpose of furnishing some more data for the tax levy of the current year, would most respectfully beg leave to state, not having had time to ascertain from the returns of assessments the total amount of taxables, that the estimated amount of total taxables in the county of Allen, for the current year, will exceed $3,000,000—and that the delinquent county tax is $2,671 91.

R. STARKWEATHER,
County Auditor.

THE CIRCULATION OF THE BLOOD is justly esteemed the greatest ordination of Divine Providence; by that beating engine, the heart, it is driven to all parts of the system, giving vigor and strength to the complicated machinery of man. This living flood, whether we sleep or wake, rollies briskly through the minutest and obtuse solid through the veins. How necessary that it should be kept free from all impurity and yet how negligent many are respecting this great essential to the enjoyment of perfect health. Derangement in the liver and Nerves is generally the primary cause; sick & sudden indigestion, and all the harassing feelings attending Dyspepsia, which makes life a burden, result from it. Suicide would rapidly follow suicide, if there was no cure. None would suffer long, if he is able to obtain a bottle of Hoffland's celebrated German Bitters, prepared by Dr. C. M. Jackson, Phila. Hospital; they rarely fail in effecting a permanent cure.

See advertisement. 48

SUDDEN CHANGE.—The extreme sudden change in the weather is most pernicious to general health; we therefore wish to apprise the public of the fact that nothing in the world is better calculated to arrest the danger of such sudden transits from cold to warm weather than Dr. J. HOFFLITZ'S CELEBRATED STOMACH BITTERS, now in such universal use everywhere. For Dyspepsia, in all its various forms, of Flatulency, Constipation, or general debility arising from indigestion, or any other derangement of the Stomach, these bitters are a certain cure, and as a preventative to Fever and Ague it has no superior. Try it. For sale by H. B. Reed, Wall & Moyer, J. D. Worden & Co., H. G. Wagner, and Druggists generally everywhere.

☞ PALPITATION OF THE HEART, NERVOUS DISEASES, Liver Complaint, Neuralgia, Dyspepsia, Costiveness and Piles, are all relieved and cured in an incredible short space of time by Carter's Spanish Mixture, the great tonic and purifier of the blood. It contains not a particle of Mercury, Opium, or any noxious drug; is perfectly harmless, and has cured more than five hundred cases of disease.

We can only refer the reader to the certificates, a few of which may be found in another column, and all of which are detailed in full around the bottle. It is the greatest of all Spring and Fall Medicine, and possesses an influence over the blood truly remarkable. 48

Rhodes' Fever & AgueCure

FOR the prevention and Cure of INTERMITTENT and REMITTENT FEVERS AND AGUE, CHILLS AND FEVER, BILIOUS AGUE, GENERAL DEBILITY, NIGHT SWEATS, and all other forms of disease which have a common origin in MALARIA or MIASMA.

This is a NATURAL ANTIDOTE which will entirely protect any resident or traveller even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered from any length of time, from one day to twenty years, so that they need never to have another chill, by continuing it on according to directions. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Two bottles will answer for ordinary cases; some may require more. Directions printed in German, French and Spanish accompany each bottle.—Price One Dollar. Liberal discounts made to the trade.

EVIDENCE OF SAFETY.

New York, June 11, 1855.

"I have made a chemical examination of "RHODES' FEVER AND AGUE CURE," or ANTIDOTE TO MALARIA," and have tested it for Arsenic, Mercury, Quinine, and Strychnine, but have not found a particle or either in it. Nor have I found any such trace in the composition that would cause injurious effects on the constitution.

JAMES R. CHILTON, M. D., Chemist."

EVIDENCE OF MERIT.

LEWISBURG, Union Co., Pa., May 2, 1855.

MR. J. A. RHODES—DEAR SIR: The box of medicine you sent me was duly received on the 11th of April. I have sold about one half of it, and so far the people who have used it are satisfied that it has cured them. It has certainly stopped the Ague in every one who has used it, and six of the cases were of long standing. My sister, who has had it for five or six years back, and could never get it to stay, exceptin the shaking and that only as long as she would take it, is now, I think, entirely cured by your remedy

C. R. MCCINGLY."

CAUTION TO AGUE SUFFERERS.

Take no more Arsenic, Tonics, Mercury, Quinine, Febrifuges, or Anti Periodics of any kind. The well-known inefficacy of these poisons proves them to be the offspring either of false medical principles, or of mercenary motives. The only remedy in existence that is both sure and harmless, is

MOFFIT'S Patent Grain Separator.

I HAVE greatly extended my arrangements for the manufacture of my improved Machine, to which has been awarded the first premiums at the *World's Fair Exhibition, New York, 1853*, the State Fairs of Ohio, 1853-4, and all other places where it has been exhibited in the United States and Europe. By many practical tests with the best machines in use, it has invariably proven superior in all essential points. I have made many valuable improvements during the last year, and have no hesitation in warranting my machines superior to any in use.

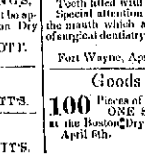
DENTISTRY.



DR. KNAPP, having opened an office in Fort Wayne, is prepared to waitupon all who may have him with their patronage.

His new styles of attaching teeth to the plate with raised and double backings, is universally admitted to be a great improvement. They secure a more natural shape, are susceptible of a much higher finish, impart twice the strength, and perfectly correct the defect of the teeth becoming detached from the plate, so common with the flat backings.

Teeth filled with ease and fidelity.

Special attention will be given to all diseases of the mouth which appropriately come under the care of surgical dentistry.

Use the Magic Impression Paper

(For Writing without Pen or Ink,

Copying Letters, Flowers, Plants, Pictures, Patterns for Embroideries, Marking Linen Indelibly, and

MANIFOLD WRITING.

THIS ARTICLE is absolutely the best portable Inkstand in the known world. Ink is ready to hand and placed in the packed constitutes a traveling inkstand, which cannot be broken. No pen is needed, for any stick sharpened to a point writes equally as well as the best gold pen in the universe. For drawing, it is invaluable. It is indeed, the whole art of drawing and painting, taught in one lesson. Any leaf, plant, or flower can be transferred to the page of an album, with a minute and distinct resemblance of nature. With equal facility, pictures and embroidery patterns are taken, and have received the highest eulogium from the fair sex, and, indeed a more tasteful present for a lady could be produced.

The Magic Paper will also mark linen, or other articles, so as to retain perfectly indelible. All the washing in the world fails to bring it out. Any child can use it with ease. With the Magic Paper, likewise, one or four copies of every letter written can be secured without any additional labor, whatever, making it the cheapest and most convenient article extant. It is used to great advantage by reporters of the public press, telegraphic operators, and a host of others.

Each package contains four different colors—black, blue, green and red, with full and printed instructions, for all to use, and will last sufficiently long to obtain five hundred distinct impressions.

It is put up in beautiful enamelled colored on the outside, with a truthful likeness of the Proprietor attached. Each and every package warranted. Price 62 a 6 2 cts; or five for one dollar. Single Packages 25 cents. Address, post paid,

Musical Instruments,

would say to the public that he is now receiving a fine stock of Boardman & Gray's celebrated Pianos, with and without the

DOLCE CAMPANA ATTACHMENT.

This attachment combines more richness and beauty of tone than was ever before attained in the Piano Forte. In particular qualities are clearness, brilliancy and delicacy of tone, which fall upon the ear with a surpassing sweetness, like the chiming peals of distant bells.

Messrs Boardman & Gray's Pianos, besides their other excellences, are warranted to be of great durability and wear longer than any others made.

He has also on hand a fine assortment of *Melodeons, Guitars, Violins, Flutes, &c.* Also Violin and Guitar Strings. In fact, almost every thing in the music line.

He is daily expecting a consignment of Stedman's superior Piano Fortes. tf—14.

About Medicine.

SEEING the world is full of new Medicines, if any person would introduce still another, in the relieds of confusion, what is to be done? There is nothing to do, only, if the medicine is good, that we know of, only to write that truth about it, in plain language, and let the article stand on its own merits, by speaking for itself through its cures. Of the purely natural Remedy obtained from a *Salt Well, 400 feet deep, in Pennsylvania,*

KIER'S ROCK OIL,

We observe that as it cures various diseases, it will be due to class it among the Cathalics,—although it is too much to say it will cure every body every time. Few, very few, however, among the multitudes now using it, are disappointed. Used as it is, both EXTERNALLY AND INTERNALLY, it attains the greater chance of reaching the seat of disease. There are various kinds of old Petroleum—offensive to smell and taste. Many of the Liniments of the day (and some are very good) are compounded in part with some kind of Rock Oil. Hence it stands to reason that if a Petroleum can be had which can be so refined as to make it sweet to smell, and taste, *Kier's Oil*, having that advantage, is the very essence and quintessence of medicine. It doctors the whole man, from head to foot—flesh and blood—Skin and Bones, and attributes Diseases and the cause of Disease—root and branch.

Justified in using this language, as the Proprietors are, from personal observation for the last two or three years, as well as from constantly accumulating testimony—Letters—Certificates—printed, and written, and verbal Statements,—we do not feel at liberty to hold back the result from the people—it would not be right.

IF YOU OBJECT

that it is said to cure too many diseases to be good,—We reply—We cannot tell *how* it is, but so it is—that it cures so many diseases—and it is no affair of ours—it is the good fortune of the sickly old. We suppose it is just as easy for NATURE to make a Remedy for the whole man as part of a man—and never leave her work half done. Another thing—we do not have so many diseases as we think. Take for instance

SCROFULA—or KINGS EVIL, and all those Diseases having their origin in a depraved condition of the blood, and other fluids of the body,—this disease is called Scrofula—combined with Rheumatism, Sore Throat, Blotched Skin, Sore Neck, Tumors, Ulcers, Swelling Joints, Stubborn Ulcers, Syphilitic affections, and the Scrofula, in a public notice, say they "cheerfully recommend it to all who are afflicted with any disease of the blood."

Certificate of Cure.—CERTAIN SCROFULA—is a very valuable the cure of Scrofula by Kier's Spanish Mixture. I consider it truly a valuable medicine. JAMES M. TAYLOR, Conductor on the R. F. & P. R. Road, Richmond, Va.

SALE BIRTH OF OUR THAT SPARKLING CORDIAL.

Mr. JOHN CRAWFORD, a resident in the city of Richmond, has sworn that three bottles of Carter's Spanish Mixture, Sale Stomach, which he purchased 20 years ago, which he has kept ever since, and that it is now good. Mr. Crawford is a well known merchant in the city of Richmond, Va., and his word is more remarkable.

WM. A. MOSBY, Merchant of Richmond, had a severe case of Syphilis in the worst form, by Carter's Spanish Mixture. He says he cheerfully recommends it, and considers it an invaluable medicine.

RICHARD WEST, of Richmond, was cured of Scrofula, and which Hydrolosis, and other affections of Consumption, by three bottles of Carter's Spanish Mixture.

EDWIN BURTON, a merchant of the same place, says he has seen the good effects of Carter's Spanish Mixture in a number of Syphilitic cases, and says it is a perfect cure for all "Ye ills of diseases."

WM. HARWOOD, of Richmond, cured of Old Sores and Blisters, which resulted him from selling. Took five bottles of Carter's Spanish Mixture, and was supplied to walk without a crutch, in a short time from my date, thus.

Composition Cement Roofing.

THE subscriber has made arrangements and procured the necessary materials for covering buildings with the popular Composition and Gravel Roofing. This system of Roofing has given universal satisfaction wherever it has been introduced, and is rapidly supplanting all others. Its great advantages of durability, cheapness, lightness, and perfect safety from fire recommend it to all persons erecting good buildings. Though fully equal to tin in every respect, the cost is less than one-half—but little more in fact than pine shingles.

For specimens the public are invited to examine the new Library Cabinet Shop of J. M. Miller, and Cooper's new Car Factory, south of A. Hamilton.

Celebrated German Bitters,

PREPARED BY

DR. C. M. JACKSON,

No. 120 Arch St., Philadelphia.

Their power over the above diseases is not equalled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids possessing great virtues in the rectification of diseases of the Liver and in our climate, exercising the most searching powers in weakness and affections of the digestive organs, they are without, safe, certain and pleasant.

READ AND BE CONVINCED.

"The Bitters mixture is, without doubt, the greatest medicine extant for diseases of the Liver and Bowels. A stubborn case of Chronic Diarrhea became under our notice, wherein the patient has exhausted the Materia Medica of the different schools of medicine, with no apparent benefit. He was induced to use these bitters, and a few bottles of them entirely cured him. Many such cases we could refer to. We hope our readers will recollect this great preparation, should they be unfortunate as to require its use. Prepared according to the original unpublished receipt of Dr. Hoofland, and his process in this medicine with great care. Those purchasing should call at his store, or see that his name is written upon the wrapper outside, and blown in the bottles, as imitation of all good articles are common."—*Philadelphia Democrat Germant.*

Carter's Spanish Mixture,

The Great Purifier of the Blood.

NOT A PARTICLE OF MERCURY IN IT.

AN INFALLIBLE REMEDY for Scrofula, King's Evil, Blotches, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Chronic Sore Eyes, Rheumatism, Gout, Scald Head, Salt Rheum, Enlargement of Glands and Joints, Stubborn Ulcers, Syphilitic Disorders, Lumbago, Spinal Complaints, and all Diseases arising from or implications use of Mercury, Impurities in Life, or the Blood.

This valuable Medicine, which has become celebrated for the number of extraordinary cures its agency has effected, has proprietors, at the urgent request of numerous friends, put it to the public, which they do with the utmost reliance in its efficacy and wonderful curative properties. The following certificates, selected from a large number, are, however, stronger testimony than the mere word of the proprietors; and are all from gentlemen well known in their localities, and of the highest respectability, many of them residing in the city of Richmond, Va.

T. BOTTOM, Esq., of the Exchange Hotel, Richmond, Virginia, says, after using four bottles of the Medicine called Carter's Spanish Mixture, established in my family in hundred cases, in nearly all the diseases for which it is recommended, with the most astonishingly good results. The age is to the other extraordinary evidence he has ever seen.

ACHE AND FEVER—GREAT CURE.—I hereby certify that for three years I had Ague and Fever of the most violent description. I underwent Physicians, took large quantities of Quinine, Mercury, and I believe all the Yankee nostrums, but all without any permanent relief. After I tried Carter's Spanish Mixture, I was entirely cured, and have enjoyed good health ever since, and I am happy to say I have had neither Fever nor Ague. I consider it the best Tonic in the world and the only medicine for ever eradicating my case. JOHN LONG.

Hanover Depot, near Richmond, Va.

C. D. LINGO, Druggist, in this city of Richmond, and for many years in the Post Office, has such confidence in the astonishing efficacy of Carter's Spanish Mixture, that he has bought upwards of 500 bottles, which he has never known to fail in its use in accordance with directions.

D. MENGE, a practicing Physician, and formerly of the City Hotel, in the city aforesaid, says he has witnessed in a number of instances the effects of Carter's Spanish Mixture, which were so most truly astonishing. He says in a case of Consumption, dependent on the Liver, the good effects were wonderful indeed.

SAMUEL BRENEER, of the firm of Brenner & Morris, Richmond, was cured of Liver Complaint and a consumptive cough, by the use of two bottles of Carter's Spanish Mixture.

GREAT CURE OF SCROFULA.—The Editors of the Richmond Republican had a severe case of Scrofula, in the worst form, called Golden Scrofula, combined with Rheumatism, which resisted all medical aid from such Physicians of the Country. Mixture, which cured the patient, and he is now a sound and healthy man. The Editors of the Republican say, "We cheerfully recommend it to all who are afflicted with any disease of the blood."

FINAL—Conclusive as the R. F. & P. R. Road, Richmond, Va.

SHUT MACHINES.

HILLS Patent, French Burr, Spun Machines, I need to 60 of the best Mills in the West; they run light, clean fast and well, are very durable and are warranted to give satisfaction. When they become smooth, the edge can be perfectly renewed in 2 or 3 hours, by the Miller cracking the Burr, whereas when an Iron Spun Mill becomes smooth, it has to be turned off and put in a lathe.

We refer here to only a few Millers who are using the Burr Machine; viz: N. Hill, Lafayette; W. D. Hibbard, Vincennes; Point King, R. Gunn, Wabash; Fallis and Shields, Attica; Shewalter and Price, Mad river; Sunlight & Bro's, Cincin.; P. McCarty, New Albany, Ind.; M. Busby, Ind.; Meginnis, Ohio.

We also answer to certificates from the proprietors of the Pittsburgh City Mill, one of the largest and best mills in the West, and for particulars refer to our handbills.
